

About i²

i² International Institute of Education is committed to providing students with a personalized elite growth program in an educational environment with foreign teachers. It has established 91 campuses in 12 provinces and 17 cities in China, and served tens of thousands of students with a quality international education. Furthermore, i² has been rated as: the "Most Influential Foreign Languages Training Organization", the "Most Influential Educational Group" and the "Famous Brand of Young Learners English".

To allow students to access international language training resources in their home country, i² International Institute of Education has always kept pace with the most advanced teaching concepts in the world. In early 2017, it launched the "iWonderful International Elite Development Program" which was jointly developed by domestic and foreign experts after nearly a year's effort. Riding a growing wave of international education, the program partnered with the world-class Macmillan graded curriculum system, which is designed to cultivate international elites with great competence in advanced cross-cultural understanding, communication, creativity, critical thinking and collaboration skills and to further enhance their overall international competitiveness.

2011

Founded in 2011, i² International Institute of Education is an international education group which develops in a high speed and is committed to provide a internationalized education plan for kids from 3 to 12 years old in an all-foreign-teacher environment.

Curriculum

④ Language

2-6: In harmony with their cognitive development, we help children of this age group develop an understanding of language, an interest in enthusiasm of learning, together with logical thinking skill to instill a good foundation for the future.

6-12: Students are helped to acquire good basic language skills, an internationally orientated view and freedom of thought.

12-18: Any weakness in students' language skills are identified and corrected to ensure even and optimal development of all skills. Also, students are encouraged to take the initiative for their own learning process. By such autonomy, and in collaboration with teachers, students learn responsibility and self-discipline.

18+: Depending on student-specific needs, we develop appropriate language learning plans encompassing everyday use, English in the workplace, academic English, business English etc.

④ Art

A very popular set of courses, students are helped to develop aesthetic skills, including appreciation, expression, and creativity. All classes are conducted in a English speaking (and teaching) environment.

④ PE

Led by foreign professional coaches, these courses not only help with physical development, but also skills and building positive attitudes.
